Shiny Hands On Tutorial

Dewi Lestari Amaliah

Prerequisites

1. Having R and R studio installed. If you haven't already, you can see the installation guide here.

2. Having these packages installed: `tidyverse`, `shiny`, `shinythemes`, `caret`, `DT`, `rmarkdown`, `officer`, `rpart`, `ggally`, `plotly`, and `randomForest`. You can install these packages by running this code:

   ```
   install.packages(c("tidyverse", "shiny", "shinythemes", "caret", "DT",
                       "rmarkdown", "officer", "rpart", "ggally", "plotly",
                       "randomForest"))
   ```

3. Download case study data on Obesity Level Classification (UCI Machine Learning Repository, 2019) here.
